Full-Stack Dev with 5 Years of Experience

Full Stack Developer with 5 years of experience in web applications. Specialized in TypeScript, React, NodeJS, NestJS, and NextJS. Focused on code quality, testing, clean architecture, and performance. I have developed and led deliveries for clients and internal solutions, trained developers, and contributed to and maintained open source projects. I'm continuously specializing in Software Architecture.

PROFESSIONAL EXPERIENCE

Mid-Level Full-Stack Developer

e-Plus, São Paulo, SP, Brasil
January 2022 – Present

- I developed headless projects focused on performance, with the main technologies being Next.js, Deno and Fresh.
- I created tools to streamline internal processes and solutions for clients, using concepts like SOLID and TDD. I used NodeJS, socket.IO, NestJS, Express, React, PostgreSQL and MongoDB with hosting on AWS EC2.
- I won a Hackathon promoted by the agency, in addition to also having won awards for personal recognition.
- I trained and collaborated with the professional development of new developers through pair programming and code review.
- I created an Open Source plugin for VSCode that is the most popular extension for VTEX IO development.

Junior Front-end Developer

e-Plus, São Paulo, SP, Brasil
January 2021 - January 2022

- I helped improve development workflows by implementing bundlers like Gulp and WebPack. These helped apply technologies like TypeScript and Tailwind.
- I developed VTEX IO projects that, in addition to applying modularization concepts, use technologies like React, Node and GraphQL.
- I worked with VTEX projects using core web technologies like HTML, CSS and JavaScript.
